

User test 2:

Eric Abarr

- Roommate
  - Age: 22
  - No CS background but took MSU's Web Design Course
  - Computer Literate
1. Home page was boring
    - a. Resolution: CSS changes?
  2. Documentation was unclear
    - a. Resolution: Make it more user-friendly and readable.
  3. Wanted cool icons for likes, instead of a text hyperlink
    - a. Resolution: Use icons instead
  4. Wanted to upload a profile picture for each user
    - a. Resolution: Implement a feature to upload a profile picture if time allows

FEEDBACK:

He was not a fan of the website style and design. He thought the sign-in page was standard, nothing too interesting to look at. He liked the functionality and the overall content in the website and was very intuitive to interact with the website (likes, comments, upload, etc).

Biggest concerns:

- CSS updates
